### SUMMARY

Enthusiastic frontend web developer with 1 year of experience creating responsive and user-friendly web applications. Proven expertise in HTML, CSS, and JavaScript, with a strong focus on modern frameworks like React.js Next.js

### EXPERIENCE

#### Frontend developer | AB Software Solutions, Satara | February 2023 - Present

- As a Frontend Developer at AB software Solutions in Satara from May 2023 onwards, I have been actively involved in web development, primarily utilizing technologies such as **React.js**, **Next.js**, **JavaScript**, and Nodejs to ensure a smooth and intuitive user experience. My proficiency extends to **Next.js**, JavaScript, **HTML**, and **CSS**.
- Implemented and maintained front-end web applications, resulting in a 20% reduction in page load speeds and conversion rates by utilizing modern web technologies such as React.js and best practices for user experience and accessibility.
- basic knowledge of **Node.js**.
- Developing user-friendly web pages and features to effectively optimize user experience.
- I also make **UI design** like Websites layouts, Admin panel layouts ,Mobile Application layouts by **using Figma Software**

### SKILLS

- Front-end Development:** Proficient in HTML, CSS, bootstrap, JavaScript,React.js
- Frameworks:** (basic of React.js, Next.js, tailwind css)
- Database:** SQL, MongoDB
- UI Designing :** Figma ,Canva
- Tools:** Visual Studio Code

### EDUCATION

#### Bachelor of Engineering in Computer Science (BE) | CGPA: 8.84

Pune District Education Association College Of Engineering (PDEA), Pune | 2019-2022

#### High school Diploma | Percentage: 76%

ABIT Shendre, Satara | 2016-2019

### PROJECTS

#### Interport Global Logistics( admin panel)

##### Description :

I first made the UI design (layout) of this admin panel in figma.Then its frontend part is made from scratch. Developed a custom admin panel from scratch for Interport Global Logistics, a leading Indian logistics company. This web-based application empowers authorized personnel to seamlessly manage, add and update content across the entire website. Implemented industry-standard security measures (e.g., user authentication with forgot password OTP to email) to protect sensitive information.

- Role:** Front-end developer
- Technologies used:** HTML, CSS, bootstrap, javascript, php, MySQL

## Follow-up web Application

### Description:

Follow up applications serve as essential tools to streamline operations, enhance productivity, and lay the groundwork for long-term success. They provide a structured approach to managing tasks allowing entrepreneurs to focus on business growth rather than getting overwhelmed by day-to-day details.

- **Role:** Front-end developer
- **Technologies used:** Reactjs, Nextjs in Frontend , node.js in backend , Database MongoDB
